KIDUS YOSEF

INTERMEDIATE FULL STACK DEVELOPER

kidayos2014@gmail.com • Addis Ababa, Ethiopia

SUMMARY

Intermediate Full Stack Developer with 4+ years of professional experience building scalable, secure, and high-performance web applications. Strong expertise in React, Next.js, Node.js, JavaScript, and MongoDB, with a primary focus on modern frontend development and backend API engineering. Experienced in designing RESTful services, database schema design, AI API integrations, cloud-based deployments, and performance-optimized user interfaces, alongside deep WordPress experience for content-driven and ecommerce platforms.
Known for delivering clean, maintainable code and collaborating effectively with cross-functional teams to build impactful digital products.

PROFESSIONAL EXPERIENCE

Software Engineer | Kossomed Cloud *09/2025 – 09/2026*

- Developed and maintained full-stack web applications using React and Node.js.
- Built reusable frontend components and optimized client-side performance.
- Implemented backend services and APIs using Node.js and Express.js, backed by MongoDB databases.
- Designed relational database schemas and optimized queries for data-heavy application features.
- Integrated third-party services including payment gateways and external APIs.

SELECTED PROJECTS

- **Abe Hotel** — Business website build and deployment, including hosting setup for hotel in dilla.
- **Kossomed Cloud** — SaaS system for pharmacies which is scalable for my own.
- **Tade Pharmacy** — pharmacy system for personal use instead of renting SaaS they prefer to use it alone.

TECHNICAL SKILLS

Frontend	React, Next.js; JavaScript (ES6+), HTML5, CSS3; component-based architecture, state management, responsive UI
Backend	Node.js, Express.js; Python, PHP; RESTful API design, authentication & authorization, secure coding practices
Databases	MongoDB Schema design, indexing, query optimization, and integration with Node.js/Express backend APIs for data-heavy applications. SQLite Database design, management, and zero-loss data recovery from database dumps.
CMS & Ecommerce	WordPress , custom plugin development; SEO (Rank Math, Search Console, schema markup, Core Web Vitals)
Tools	Git, GitHub, VS Code, cursor / AI pair-programming workflows

EDUCATION

Bachelor of Science in Information system
Wolkite University — 2026

LANGUAGES

Amharic — Native | English — Intermediate

KEY ACHIEVEMENTS

- Built and deployed scalable React and Node.js applications in production environments.
- Improved application performance, database query efficiency, and API response times by 30–40%.
- Delivered 5+ full-stack projects across tourism, healthcare, and non-profit industries.
- Developed a custom AI-powered SEO plugin integrating AI APIs with WordPress.

VALUE PROPOSITION

Open to collaborating with forward-thinking companies to deliver scalable, secure, and SEO-optimized web and software solutions. Brings a strong mix of full-stack engineering, database expertise, AI integration, and cloud experience to help organizations build reliable digital products that drive measurable business results.
